

Temporary Housing After a Disaster (THAD) Zoning Clearance Application Instructions

County of Ventura • Resources Management Agency • Planning Division

800 S. Victoria Avenue, Ventura, CA 93009 • (805)654-2488

www.vcrma.org/divisions/planning OR <http://venturacountyrecovers.org>

1. A recreation vehicle (RV) may be used as temporary housing unit after a disaster. The RV must have an area to sleep, a kitchen, contain an adequate source of potable water, have a connection to an approved source of electrical power, and have a bathroom with bathing facilities and a toilet. The RV must be connected to sewer, septic, or have a wastewater tank that is located within or outside the RV. All wastewater must be discharged at a wastewater disposal facility licensed by the Environmental Health Division. Please understand composting toilets do not substitute for toilets connected to sewer or septic.
2. To apply for a temporary housing unit, please submit this form and the required site plan of the property. A hand-drawn site plan is permissible.
3. Issuance of a THAD permit does not guarantee issuance of a Building Permit from the Building & Safety Division, or related permits from other divisions such as Public Works and Environmental Health.
4. The temporary housing unit cannot be brought onto the property until the debris from the fire has been removed and the California Department of Toxic Substances (DTSC) has cleared the property for use. Exceptions to this rule may be made on a case-by-case basis after consultation with the Environmental Health Division.
5. Temporary housing units are permitted for one year, during which time, a permit for reconstruction of your home must be submitted. For victims of the Thomas Fire, temporary housing units are permitted for an initial period of 18 months. A subsequent 18-month extension may be permitted, but no later than January 1, 2023, if the temporary housing unit is: (1) connected to a permanent source of potable water (e.g., public water purveyor, water well); (2) connected to an approved source of electrical power; and, (3) continues to comply with the wastewater disposal requirements previously permitted.
6. After a building permit has been issued, the THAD permit will be converted to a *Temporary Housing during Construction* permit and you will be given an additional 12 months to reconstruct your home. A Zoning Clearance is required to convert the THAD permit to a *Temporary Housing during Construction* permit.
7. Prior to final approval (e.g., Certificate of Occupancy) given by the Building and Safety Division for your reconstructed home, the temporary housing unit (e.g., RV) must: (1) cease being used for temporary housing; (2) be disconnected from all of the utilities; and, (3) either be removed from the lot or properly stored on the lot in conformance with the Zoning Ordinance.

8. If protected trees have to be removed to accommodate placement of the temporary housing unit, a tree permit may be required. For more information please use this link:

<https://www.vcrma.org/tree-permits-and-the-tree-protection-ordinance>

Provide the Following Materials with the Zoning Clearance Application

1. Please provide a drawing for the temporary housing unit which graphically depicts the following:
 - a. The property lines
 - b. The easements
 - c. The trees that will be removed to accommodate the placement of your temporary housing unit
 - d. The location of the Temporary Unit
 - e. The location of the wastewater facility (i.e.: septic tank and lines or sanitary sewer connection and lines)
 - f. The location of water approved water source. If it is a well show the well and tank sites. If it is public water show the lines.
 - g. The FEMA floodway
2. **THAD Application Fee** may be paid using cash, credit card, or check payable to the County of Ventura, Planning Division. The fee from the Planning Division for a THAD permit is currently \$167. The Ventura County Board of Supervisors adopted a fee waiver for the THAD permit for victims of the Thomas Fire. Similar fee waivers for victims of the Woolsey and Hill Fires are being considered by the Board of Supervisors on December 4, 2018.
3. **Application Form** filled out completely.
